

SPECIFICATIONS

Chicken wire, or poultry netting, is a mesh of wire commonly used to fence poultry livestock, such as chickens, in a run or coop. Chicken wire is manufactured of thin, flexible galvanized steel wire, or stainless steel with hexagonal gaps.

Available in 1 inch (about 2.5 cm) diameter, chicken wire is available in various wire gauges usually 19 gauge (about 1 mm wire) to 22 gauge (about 0.7 mm wire).

In the insulation industry, chicken wire is mainly used as a matrix for holding insulation cements and mastics in place.

Stainless Steel Options

22 Ga. 24" x 150' Stainless Steel 1" Hex Mesh
18 Lbs/Roll

22 Ga. 48" x 150' Stainless Steel 1" Hex Mesh –
36 Lbs/Roll

Galvanized Steel Options

20 Ga. 24" x 150' Galvanized Steel
1" Hex Mesh - 23 Lbs/Roll

20 Ga. 48" x 150' Galvanized Steel
1" Hex Mesh – 46 Lbs/Roll

Subject to price change and availability.
