

CEVaC
L I M I T E D

CEVaC: Self-Adhesive Base Insulation Hangers.

TYPE: IF 50456 SC-SS-89B Stainless Steel Self-Adhesive Base Hanger.

Base: 50mm x 50mm Stainless Steel AISI 304.

Pin Shank: 2.7mm diameter x 89 mm long Stainless Steel.

Washer, Self-Locking Spring Fastener Clip: 30mm diameter to suit 2.7mm Pin Stainless Steel.

Self-Adhesive Base Hangers are designed to efficiently fix insulation to metal, attenuators, enclosures and smooth sound substrates. Surfaces must be clean, dry and free of dust, grease, oil and any other loose matter

before the Hangers are applied. It is recommended that the user make test bonds to ensure the compatibility between the substrate and adhesive.

Self-Locking Washers are supplied with the Hangers and are applied over the protruding Pin to retain the Insulation being fixed. Dome Washers are also available, if needed, to cover the sharp point of the Pin for safety.

This size of Hanger is packed in sets of 500 including the Self-Locking Washers.

Every effort is made to ensure that the information contained in our literature, drawings and correspondence is accurate, but no warranty is given in this respect and the Company shall not be liable as a result of any inaccuracy. The Company reserve the right to alter at any time without prior notice, the design, specification, packaging or price of any article and without incurring any obligation. All quantities, weights etc, subject to normal commercial tolerance.
