

CEVaC: Accessories, Fixings & Fasteners for Insulation.

Insulation Fixings

IF.5100 to 5109 Perforated Base Insulation Hangers.

TYPE: GSP-19B to 203A Steel Perforated Base Hanger.

CEVaC
LIMITED

- **Perforated Base Hangers are designed to efficiently fix insulation to metal, brickwork, concrete, board, masonry, plaster and other sound substrates.**
- **Surfaces must be clean and dry before the Hangers are applied.**
- **If using an adhesive it is recommended that the user make test bonds to ensure the compatibility between the substrate and adhesive.**
- **Self-Locking Washers are supplied with the Hangers and are applied over the protruding Pin to retain the Insulation being fixed.**
- **Dome Washers are also available, if needed, to cover the sharp point of the Pin for safety.**
- **The Hangers are packed in sets of 500 or 250 for longer lengths including the Self-Locking Washers.**

Every effort is made to ensure that the information contained in our literature, drawings and correspondence is accurate, but no warranty is given in this respect and the Company shall not be liable as a result of any inaccuracy. The Company reserve the right to alter at any time without prior notice, the design, specification, packaging or price of any article and without incurring any obligation. All quantities, weights etc, subject to normal commercial tolerance.
